SIRESTER® ISG 0839/MMA

Description

Isophthalic unsaturated polyester resin based on neopentylglycol, diluted in styrene and acrylic-modified, preaccelerated with medium reactivity and medium-high viscosity. The resin is UV stabilized.

Applications

SIRESTER ISG 0839/MMA is particularly suitable for solid surface applications, as fully densified products like onyx, sanitary and marble imitations, where high chemical and weathering resistance are required.
